

Triste y madrigal

(for voice, flute, French horn, harp, electric guitar, violin and pre-recorded sounds)

Tomás I. Gueglio Saccone

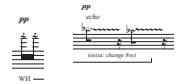

Triste y madrigal

(for voice, five instruments and pre-recorded sounds)

PERFORMANCE NOTES

GENERAL

(1) Slight amplification is suggested for all the instruments, especially the voice

(2) All performers except the vocalist and horn player required to whistle at various points in the piece. Whistling of a specific pitch is indicated by a small round notehead. Whistling of a non-specific pitch is indicated with a wiggly line.

(3) Violin, harp and guitar feature auxiliary staff to indicate whistling and humming

(4) Zing: exponential crescendo. Accelerating towards the end of the hairpin

(5) Linear rallentando independently from the ensemble: slow down somewhat freely until the 'aprox. duration' indication. Go back to following the conductor immediately after that or at the 'back in sync' indication.

FLUTE

(1) T.R= Tongue ram

(2) Noteheads: different sound qualities are indicated with different noteheads. Empty rhomboidal notehead means 'airy', filled rhomboidal notehead means 'half sound/half air'

(2) Dark circle: covering the mouthpiece with the mouth. This symbol is cancelled by an empty circle

(3) 'at a distance from mouthpiece' (hollow): the desired sound resembles blowing into a glass bottle

(4) Timbral trill: switch between different fingerings producing the same pitch with a slight difference in intonation

(5) Speaking inside the flute while covering the mouthpiece. The desired effect is that of indistinct mumbling coming out of an old radio

(6) Flutter tongue is indicated through the traditional symbol although located on top of the staff

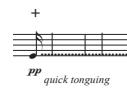

FRENCH HORN

(1) The French horn uses a plunger or a wah-wah mute throughout

(2) A plus sign means 'mute closed', and empty circle 'mute open', a half-filled circle means '1/2 open'. An arrow between these symbols stands for 'progressively from x to y'

(3) Tremolo sign = timbral trill. switch between different fingerings producing the same pitch with a slight difference in intonation

(4) Fast tonguing: repeated double or triple tonguing as quick as possible.

(5) Wiggly line = molto vibrando

(6) Two or three dots over a note= double or triple tonguing

(7) Speaking inside the bell of the horn. The desired effect is that of indistinct mumbling coming out of an old radio. Same effect is used in the flute.

VIOLIN

(1) Three different points for bow placement: a) Sul tasto (ST) b) Ordinario (ORD) 3) Sul ponticello (SP)

pizz.

(2) 'Toigs' pizz: perform the gliss like a cartoon effect. Like singing with the glottis. Heavier towards the onset of the sound

(3) Practice mute: the desired effect is sound coming out of an old radio. Heavy on the mid-frequencies of the spectrum. If a different mute is better suited to this effect feel free to use that one instead of the practice mute.

HARP

- (1) skin glissando: caress the strings softly with the fingertips producing a ‘whispy sound’. The number between parenthesis indicates the number of fingers to be employed in the glissando

(2) Harmonics: This notation means: perform a harmonic on the C-string (regular noted head) on the same horizontal line where a 7th harmonic (rhomboidal notehead) would be on the F-string (square notehead). The resulting sound can vary from a rich multiphonic to a pitchless thud. Rich multiphonics are preferred. Feel free to adjust the location of the multiphonic slightly to achieve such multiphonics.

(3) Smaller notes: those are to be achieved only through pedaling. Not to be re-articulated.

ELECTRIC GUITAR

- (1) The electric guitar to be employed has to feature a whammy bar

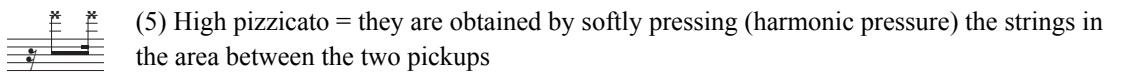

- (2) The guitar is retuned in the following way: 6=C, 5=F#, 4=C#, 3=G, 2=B, 1=Eb
The score is “tablature style”. Only fingerings are provided, not sounding pitches

- (3) The set up involves also a volume pedal

(4) Volume pedal indication for ‘from niente to normal’

①

(5) High pizzicato = they are obtained by softly pressing (harmonic pressure) the strings in the area between the two pickups

- (5) + = Hammer on

- (6) (mute) = mute with the right hand close to the bridge

(7) Mute symbol: choke the sound suddenly

SCORE IN C. APPROXIMATE DURATION: 8'

This page contains six staves of musical notation. The top staff is for Flute (Fl.), followed by Horn (Hn.), Violin (Vln.), Soprano (S), Trombone (Tp), and Harp (Hp.). The harp staff includes a dynamic instruction 'airly t!' with a crescendo line, and 'pp' followed by 'f'. The second staff from the bottom has a dynamic 'pp' with a grace note 'o' above it, and a measure number '+'. The third staff from the bottom has a dynamic 'pp' and a 'jété' instruction with a circled 'I'. The fourth staff from the bottom has a dynamic 'pp' and the text 'peace - ful —————'. The fifth staff from the bottom has a dynamic 'pp' and a 'wh' instruction above it. The harp staff has a dynamic 'skin (2) - - - - , 8va' with a dashed line, and '...fading...' below it. Measure numbers 5 and 4 are marked at the end of the page.

Gtr.

This musical score page features six staves for Flute (Fl.), Horn (Hn.), Violin (Vln.), Soprano (S), Trombone (Tp), and Double Bass (Hp.). The Flute, Horn, and Violin staves are silent, indicated by horizontal bars across their respective staves. The Soprano staff contains a vocal line with lyrics: "to ——— hide ——— my ——— sen ——— ti ——— men ——— tal ———". The Trombone and Double Bass staves are also silent. A bracket groups the Double Bass and Trombone staves. The title "TAPE INTERLUDE - TACET ~1'15"" is positioned at the top right. The vocal line for the Soprano is labeled "Freely". The score is divided into measures by vertical bar lines, and the vocal line follows a melodic line with various note heads and stems.
